sanitation

How This Affects You

Overflowing litter baskets are unsightly, hurt our wildlife and environment, and create health and safety issues.

What You Can Do

Use litter baskets the right way – when you're on the go. Putting home or business trash in or around a litter basket uses the space meant for pedestrians. Avoid a \$100 fine by using corner baskets the right way.

Next Steps

Learn how to get rid of trash at nyc.gov/dsny.

Report an overflowing litter basket by calling **311** or visiting nyc.gov/311.
